General Information

Shaw's™ 13-11-11 contains Crystal Green® a slowly available product that releases nitrogen, phosphate and magnesium. This product contains 100% of Phosphate from Magnesium Ammonium Phosphate. 13-11-11 is blend of Crystal Green® and homogeneous controlled release fertilizer designed for turf where superior quality is desired. Actual release longevity will depend on environmental conditions such as temperature, rainfall and on growing practices used such as irrigation. This product also contains Gro-Gard, a proprietary blend

of two bio-active amino acids and co-factors; it activates key amino acids that help regulate nutrient movement between plant cells. And with greater nutrient availability, plants can achieve their full genetic potential for growth and vigor. Gro-Gard protects your turf, optimizes nutrient uptake and movement within plants, and enhances overall plant health.

The following settings are approximate for applying contents of this package. Settings are based on average walking speed. Reduce settings for slower speed and increase for higher speed. Check your spreader on 250 sq. ft. and adjust to apply ¼ of 1,000 sq. ft. rate. PLEASE NOTE: These settings are furnished as a starting guide only.

RATES ARE FOR POUNDS PER 1,000 SQ. FT.	
SPREADER SETTINGS	6.6lbs.
BF1&bf1SS	N
Lesco #029600	J
Scotts R&A/SR-1	P
Earthway 2200/2400	18
Spyker 76/78-2	6 ½
Lely	6
Vicon	28

Application Instructions

Adjust your rates based on soil test results and your agronomic program needs.
